1   Introduction

 Write: Introduction

For an example Graphviz diagram, see fig. 1. The digram was generated from the source given in listings 1 and 2.

Listing 1: M4 Macros included in Graphviz code

```
// dot files are preprocessed with M4
// So you can define common macros here to use in all diagrams

define(TENTATIVE, 'style="dashed"')
```

Listing 2: Example Graphviz code

```
digraph{
    hello -> world [TENTATIVE]
    world -> "!" [TENTATIVE]
}
```
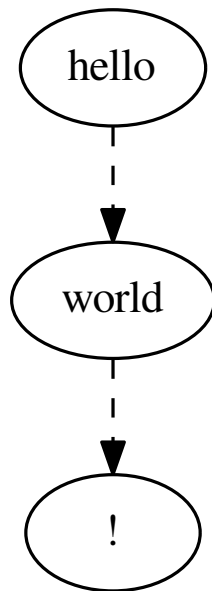

Figure 1: Example Graphviz (dot) diagram
